22 > 25 SEPT. 2020

International
microtechnology
virtual event

Micronora organizes its digital event

from 22nd to 25th September 2020

*The "physical" Micronora trade fair has had to be postponed to 21-24 September 2021 (Besançon - France). In light of this and as the leading microtechnology trade fair in Europe, Micronora has decided to organize a virtual event, **e·micronora**, which is to take place on the dates initially scheduled for the fair – 22-25 September 2020.*

With this digital event, Micronora wants to support manufacturing companies in their recovery, and also maintain exhibitor visibility, communicate about technologies and innovations in the microtechnology sector, facilitate discussions and introductions.

e·micronora will include :

- ▶ Thematic **webinars** and **pitch** sessions by experts (Free registration will open late August 2020)
Organized in partnership with: Club Laser et Procédés, Collège Français de Métrologie, Femto-st, Enterprise Europe Network / CCI BFC
- ▶ **B2B meetings** to initiate business and partnerships with the **e-micro & nano event**
Organized by the Enterprise Europe Network / CCI BFC
- ▶ **Technical, innovative videos** by 2021 Micronora trade fair exhibitors

Registration and information:

The B2B meeting - e-micro & nano event

The Micro & Nano Event usually takes place during the Micronora trade-fair. Following the postponement of the show and until the next "physical" event in 2021, it goes fully DIGITAL: the e-micro & nano event joins e.micronora from 22nd to 25th September 2020, opening many opportunities for companies to find relevant partners, suppliers or clients. Organised by the Enterprise Europe Network, this event is aimed at companies, research and R&D organisations, and clusters.

The event combines a virtual brokerage event (innovation, technology or business e-B2B meetings) and e-pitch sessions (oral presentations of innovative technologies and partner searches).

To take part, companies just have to sign up and describe what they are offering (innovative technologies, expertise or know-how) or looking for. Each participant will be informed of the start date for making appointments so that they can select the contacts that interest them. Participants will be able to accept or decline requests.

After the selection stage and before the event, participants will receive an optimized schedule of the videoconference meetings.

Registration and information ont the B2B meetings: www.micro-nano-event.eu

Registration fee : 100 € excl VAT* – to register: <https://micro-nano-event2020.b2match.io/signup>

* Companies (principals) looking for technology solutions or seeking suppliers can benefit from a 100% discount. If companies meet these criteria, they can contact: am.vieux@bourgognefranchecomte.cci.fr to get the discount.
